EDUCATION

- Vellore Institute of Technology** Bhopal, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 8.68 *Sep 2023 - May 2027*
Courses: Data Structures, Algorithms, DBMS, Operating Systems, Computer Networks, Machine Learning
- Cambridge School Greater Noida** Greater Noida
Class XII (CBSE) *July 2022*
- Cambridge School Greater Noida** Greater Noida
Class X (CBSE) *July 2020*

SKILLS

- Programming:** Python, SQL, Object Oriented Programming, Data Structures & Algorithms
- Backend & System Design:** REST APIs, FastAPI, Database Design, Modular Backend Architecture, System Design (HLD)
- Machine Learning & Analytics:** Machine Learning, Predictive Analytics, Data Cleaning, Data Analysis, Pandas, NumPy, XGBoost
- Core CS:** DBMS, Operating Systems, Computer Networks
- Tools:** Git, Docker, Postman, AWS

EXPERIENCE

- Indian Council of Agricultural Research - IISWC** Dehradun, India
Full-Stack Intern **Dec 2025**
 - Backend & Data Workflows:** Developed modular data processing workflows using Python for soil conservation analysis and prediction.
 - Analytics:** Processed and analyzed environmental datasets using Pandas and NumPy to improve predictive insights.
 - Machine Learning:** Worked on ML-based analytical pipelines for environmental risk assessment.
 - Automation:** Automated preprocessing and reporting workflows using Python to improve efficiency.

PROJECTS

- Krishi Rakshak [Live] [GitHub]:**
Built a machine learning-based system for soil conservation analysis using agricultural datasets.
Implemented predictive workflows, automated preprocessing pipelines, and analytical models.
Designed modular system components for scalable integration.
Tech: Python, FastAPI, Pandas, NumPy, Machine Learning, SQL, Next.js, Tailwind CSS, REST APIs **Dec 2025**
- Employee Attrition Prediction Management System [GitHub]:**
Developed a predictive analytics system to identify employee attrition patterns using structured HR datasets.
Performed data cleaning, preprocessing, feature engineering, and model evaluation for predictive analysis.
Integrated SQL workflows and XGBoost models for efficient analytics and reporting.
Tech: Python, Pandas, NumPy, SQL, XGBoost, Scikit-learn, Matplotlib **Nov 2025**
- TrustIQ | AI Product (In Progress) [GitHub]:**
Developing a backend-focused AI platform for structured data validation and intelligent verification workflows.
Designed API-driven workflows and automated document analysis pipelines for scalable processing.
Working on modular backend architecture and LLM-assisted analytical systems.
Tech: Python, FastAPI, SQL, Transformers, REST APIs, Next.js, Tailwind CSS, PostgreSQL **Ongoing**

CERTIFICATIONS

- Oracle Certified Data Science Professional - Sep, 2025
- Deloitte Data Analytics Job Simulation - July, 2025
- Human Computer Interaction(Elite), NPTEL - June, 2025
- Introduction to Machine Learning, NPTEL - Sep, 2024

POSITIONS OF RESPONSIBILITY

- Lead, Public Relations and Outreach** Aug 2025 – Present
UI/UX Club *VIT Bhopal, India*
 - : Led outreach campaigns and coordinated execution for club initiatives and events.
- Core Member, Content Team** Nov 2024 – Mar 2025
AI Club *VIT Bhopal, India*
 - : Created technical and AI-focused content for student engagement initiatives.
